

ABOUT OUR COMPANY

HIYOSHI INDIA ECOLOGICAL SERVICES PRIVATE LIMITED was established in 2011 and it is a subsidiary company of Hiyoshi Corporation, Japan a company founded in 1955 with the sole purpose of serving to the global environment.

Hiyoshi Corporation aims to be “social and technology-oriented” with its corporate motto, “**No company exists without social contributions and competence**”. Keeping this corporate motto in mind, Hiyoshi has been dedicating its services for the environment and to the community and international society for more than half century and now Hiyoshi India is also following in the footsteps of its parent company with our slogan “**Think of Ecology**”.

Hiyoshi India laboratory has been accredited in accordance with **ISO/IEC 17025:2017** in the disciplines of Chemical Testing by **NABL** (National Accreditation Board for Testing and Calibration Laboratories), NABL is a constituent board of Quality Council of India (QCI).

OUR OBJECTIVE

The objective of this student project/training is to underline the importance of saving the environment. Environmental education deals with the need to protect the environment because global warming, pollution and many other issues are ruining our environment badly. We need to understand the importance of healthy environment and thus take all the possible measures to keep it healthy. Therefore, environmental education and protection is crucial for the benefit of both the environment and humans.

Education has the power to modify the society and present better knowledge to its populace. Education can stand as proper solution to solve different sorts of problems that exist in a society and therefore, education has a big role to play to save environment.

OUR SERVICES

As an environmental services company, Hiyoshi India Chennai is offering the following services to college and university students who have undergone environment related specialization (water and wastewater) in their regular curriculum.
